## Frequently Asked Questions

### Why should I buy a Guide?

- To build technology skills quickly and easily.
- To save time – the guides provide step-by-step directions that you can use as your lesson plan to teach technology and as a handout for your students to follow.
- The Guides are affordable and effective. Books and manuals are often too long, hard to understand, and expensive. My eCoach® Guides are short, easy, and within your budget.

### What skills does each Guide cover?

- The Guides target basic to advanced skills. Visit the online store at [www.my-ecoach.com/store](http://www.my-ecoach.com/store) to get a full description for each of the Guides.

### How can I buy a Guide online?

- Go to [www.my-ecoach.com/store](http://www.my-ecoach.com/store)
- Find the guide you want, and click to pay with your credit card.
- Your guide is made available to you instantly in PDF format ready to download or can be mailed to you in printed form for an additional fee to cover shipping and handling.

### Can I buy Guides using a personal check or PO?

- Yes. Find the Guides you would like to purchase, fill out the attached Guide Order Form, and send a check or PO for the appropriate amount. You can choose to have your Guides emailed to you, put on a CD, or sent out in printed format for an additional fee to cover shipping and handling.

### Can I make copies of the Guides I purchase?

- You have full duplication rights for your individual use or with your group of students if you are a K-12 teacher. If you want to make copies for others in your school, office, or organization you need to purchase a group license.

### What if I don't see the Guide I need?

- We have many guides currently under development or for purchase for group license. Check back in our store often as we add more Guides monthly.
- We can create more Guides if there is enough demand. Please email [store@my-ecoach.com](mailto:store@my-ecoach.com) to suggest a Guide you would like us to create.
- We can create a guide for your organization. Contact us for pricing.

## Testimonials

"My eCoach® went the extra mile to make sure we received quality products and service. Now our teachers have access to the Guides in a password protected area on our website."

Pamela Morgan, Director of Technology  
Newark Public Schools, NJ

"The Guides were easy to purchase online. I like that I could find exactly what I need and have it downloaded on my computer instantly!"

Aileen Belen, Real Estate Agent  
West Covina, CA

"Our teachers across the state of Washington are using the Guides. They find them a very useful tutorial and reference after any of our workshops. Thank You!"

Ann Black, Director, Special Education Technology Center  
Ellensburg, WA

"My eCoach® Guides are developed and delivered in a concise, step-by-step format, and are perfect accompaniments for our trainings."

Jan Hartman, Curriculum and Professional Development  
San Juan USD, CA
